

Composition Assessment at Nordic Arabian Sporthorse Championships Open, 2022

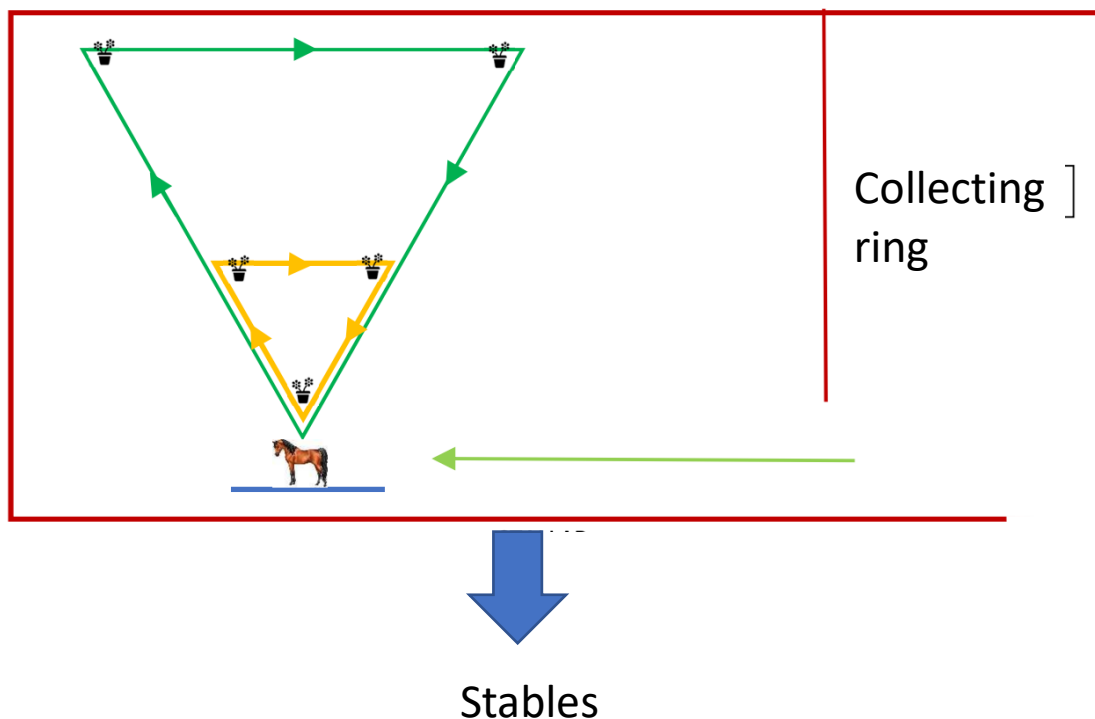

All horses in the class enter the ring walking and returns to the collecting ring waiting for their individual assessment in numerical order. An assistant to the handler is allowed during the individual assessment to help showing working trot.

The horse is allowed to show-off but only on a straight line with no small rotations.

All “excitements” from outside the ring is strictly prohibited but applauses are of course allowed and encouraged!

At the individual assessment the horse enters the ring trotting (show trot allowed), halt for examination, thereafter walk in a small triangle, trot in a bigger triangle and halt before leaving the ring walking according to instructions from the ringmaster.

When all horses in the class are assessed and given their points there will be a ranking. The six horses with highest points will enter the ring for price ceremony. If two horses have reached the same point, the highest ranking for type is decisive and thereafter the rankings for “trot” followed by “body and topline”.

Red = fence, Light green = show-trot, Blue = halt, Yellow = walk, Dark green = working trot
